FROM ROCKY FORD

The efficient work of the Highway Engineer is proving to
be very inefficient to the Hill Billies and Hayseeds, as the
patrons on R.R. No. 1 from Commerce have been notified by Uncle
Sam that unless they work the road the route will be
discontinued.

It is an evident fact that there are several poll tax
payers in this district that have not been given an opportunity
to work out their road tax. Some of them went and worked
without authority from the overseer but he gave them to
understand that their work was not needed or at least he would
not give them credit for it. Probably the patrons could get
the efficient engineer to exchange the worthless road machine
for an air ship.

Urial, Mildred and Clara Daugherty, of Ellis district are
visiting their aunt, Miss Bertie Daugherty.

Rev. C.M.Weaver will speak at Macedonia school house Monday
night January 9 at 7:30. Subject will be "how to make
meetings interesting." Come, men and women.

Mrs. Lydia Keese, of Sandywoods, visited her mother, Mrs.
Louisa Hilleman, of Illmo, during the holidays.

Chas Hilleman, jr and family returned to his good old father
after a long stay in California.

The annual meeting of the Lutheran church was postponed for
Sunday 8 because of the bad weather New Years day.
