

Roll #12, Probate Court, Volume B, Feb 1854 - Jan 1872
Tennessee State Library and Archives Microfilm
Clerks Index of Settlements, Administrators' Exec. & Guardian
May 1859 - March 1868

The intent of this index is to assist Cannon County researchers in locating court records. The Index in the court record book is not always as specific as it could be and at times is incorrect. The record entries were made by many individuals and the varying hand writing is difficult to read at times. The records entered in this time period can also involve other entries in other record books kept during the same time period so keep that in mind when you are researching. If the entry you are looking for is not included in this record it may very well be found in another. Also, the alpha listing in most cases lists the administrators name instead of the deceased party or other party involved. The record you are looking for could very well be included in this record but indexed improperly.

DISCLAIMER: This index is transcribed from microfilm of the actual court record book. In no way is the author responsible for any errors or omissions that may have occurred in the transcription of this record. It is advisable to obtain an actual copy of any record referenced in this document for your own interpretation.
