

THIS DODGE COUNTY SCHOOL DISTRICT LIST IS PRESENTED - COURTESY OF THE DODGE COUNTY HISTORICAL SOCIETY

The photographs in this exhibit represent some of the 37 surviving rural schoolhouse buildings in Dodge County. In 1918 there were 85 districts, putting a school within walking distance of most rural families. Excluding those located in the small towns of the area, only five of those listed still exist as single districts. Others have consolidated into newer and larger buildings. Others have been transformed into homes and farm buildings, and many stand vacant. Several have been lovingly maintained and others are undergoing restoration. Note: The photographs - taken by Kate Freeman - will gradually be scanned and linked to the TWSP listed on the 1885 County Map.

Compiled by Kate Freeman, North Bend about 1970.
